STEM CELLS

“Inspired by Nature, Realized by Science”

Stem cells represent a major breakthrough in skin care, by protecting and replenishing the building blocks of what makes up our own human skin cells. Where peptides can stimulate different functions in the skin by acting as messengers to skin cells, stem cell technology improves the life of the core of the cell, working in synergy with peptides, and enhancing the effectiveness of other active ingredients.

STEM CELL APPLICATIONS:

Apple Stem Cells *(Malus Domestica)* – Swiss apple stem cells, protects human skin cells

Edelweiss Plant Stem Cells *(Leontopodium Alpinum Cell Culture Extract)* – Potent anti-wrinkle treatment

Lilac Leaf Stem Cells *(Syringa Vulgaris Cell Culture Extract)* – Anti-oxidant, anti-acne, anti-inflammatory

Sea Fennel Stem Cells *(Crithmum Maritimum Callus Culture Extract)* – Skin lightening & age mgt.

- **Stem Cell Replenishing Serum**
  Featuring a potent concentration of apple and edelweiss plant stem cells, state-of-the-art peptides, and other cutting edge ingredients, the Stem Cell Replenishing Serum is thoroughly formulated to produce age defying results, restoring the youthful look and vitality to aging skin.

- **Stem Cell Moisturizing Cream**
  Also featuring a healthy concentration of apple and edelweiss plant stem cells, peptides, and numerous botanical extracts, the Stem Cell Moisturizing Cream is formulated to produce age defying results while also helping to maintain healthy and youthful looking skin as a daily moisturizer.

EXPECTED BENEFITS:

- Protects the longevity of the skin cells
- Limits collagen degradation
- Provides high anti-oxidant activity
- Combats chronological aging
- Increases the effectiveness of peptides and other active ingredients
